Experience

Frontend Engineer | *Uno.ai, Palo Alto*

Mar 2022 – Present

- Implemented the entire web UI from page layouts to interactivity using *React* and *Tailwind*
- Rendered graph nodes and edges using *reactflow* and charts using *recharts* and *visx*
- Shared global states between pages and reusable components using *zustand*
- Wrote multiple unit tests using *Cypress*

Projects

Audiophile | *React, Tailwind*

- Built a responsive, multi-page e-commerce website
- Used React's state management to add/remove products, edit product quantities, and view correct checkout totals in the cart
- CSS-Grid-based layout for categorized audio products and individual product information pages

Product Feedback | *Next, Tailwind*

- Built a responsive, multi-page CRUD website collecting product feedback
- Used Next's built-in API routes and modified local JSON file to add/remove/edit/read feedback
- Used Next's built-in routing to switch between individual feedback pages where inside one can interact with the comment section

Designo | *React, Tailwind*

- Built a responsive, multi-page design agency website focused on creating imaginary designs
- CSS-Grid-based layout for individual preview designs and company information pages

Education

University of California, San Diego | *La Jolla*

Sep 2018 – June 2021

Bachelors of Science, Data Science

Skills

React, Tailwind, Typescript, Javascript, HTML, CSS, Reactflow, Recharts, Zustand, Visx
